303-443-8250

fax 303-443-7397

Dear Parents,

We are very pleased that you have chosen our staff to be your dental health care providers. You may rest assured that our goal is to give your child the most modern health care and provide you with the foremost in prevention.

Doctor Jones is a graduate of the University of Nebraska Medical Center College of Dentistry. His Pediatric Dental Residency was completed at the Medical University of South Carolina, Children's Hospital. Doctor Jones was the chief resident in the Pediatric Dental Clinic in 1988. At that time he began his dental practice in Boulder.

In 1999, Dr. Jones was pleased to announce that he passed the final examination to become a diplomat of the American Board of Pediatric Dentistry. Dr. Jones is the only practicing Pediatric Dentist in Boulder that is Board Certified.

Our goal is to make your child feel welcome in our office and get their dental health started in the right direction. Prevention is the most important aspect of Pediatric Dentistry. Prevention in our office means more than just fighting cavities. It means early intervention, orthodontic guidance of eruption of permanent dentition, and development of good oral hygiene habits.

Please feel free to ask our staff any questions you may have regarding the dental health care of your child. We strongly recommend that your child be seen every six months for examination, cleaning, and oral hygiene instructions. We treat all of our patients with a team approach so that you can be confident that we are all here to help you. To help you maintain a periodic schedule, we will send you a post card to remind you of the six month interval. We will also call periodically to schedule appointments.

Thank you for selecting our team to help you with your child's dental health!

We are located at the intersection of 34th & Iris, just south of 34th and the Diagonal in Northeast Boulder
